Tauceti (Lilou Chelal) is a DJ / producer / composer from Lyon. As a DJ Chelal distills a dark, tropical and sensual techno with percussive and vaporous rhythms in her mix. She stands for a very particular elegance and a certain, clearly audible maturity, which makes her stand out. „Guanyin“ is her very first full length - where she transfers the elegance of her sound into a very personal and unique journey.

Tauceti about „Guanyin“:

I am pleased to announce the release of my very first ambient album on the Denovali label. This is probably the most personal record I produced so far, because it is in a way a tribute to my Middle Eastern and Asian origins. It is a hybrid and intimate object, at the border between futurism and cultural heritage, with a desire to approach a more contemporary environment at the limit of classical. I used traditional instrument patterns, sounds intimately linked to oriental instruments, all the while using my electronic touch composed of drone/ ambient and sound distortions. This is the result of a year of reflection and increased exploration of new frontiers in the studio, which has gradually evolved into a desire to make an album concrete. Composed of eight tracks, some of you may have heard some of them during my ambient set during the last edition of Nuits Sonores, just before Vail and Rodhad's magnificent live performance. It's a kind of homecoming for me, the very first tracks I produced years ago already being part of the ambient register. This is an opportunity for me to reaffirm the multi-faceted aspect of my artistic project, drawing on various aesthetic registers, between ambient and techno. I would like to warmly thank the Denovali label for their trust here, and with whom I will have the chance and the opportunity to maintain a privileged relationship for the next years.
